# PAN CONNECTORS

## Technology from UK

To connect toilets with horizontal and Vertical outlets to standard SWR pipework, Ashirvad has introduced a new range of products that are plumber friendly in nature, made of flexible plastic, the connectors tolerate movement, are leak proof (with multiple fins) and can connect different pipe materials.

# STUDOR

## Active Drainage Ventilation System

Studor P.A.P.A. (Positive Air Pressure Attenuator) and Studor Air Admittance Valves (AAVs) provide a complete Active Drainage Ventilation solution, which is particularly suited to high - rise applications.

An active ventilated system provides relief at the Point Of Need (PON) by removing or attenuating an Incoming pressure transient that, if left, could lead to trap depletion.

The combination of the P.A.P.A., Maxi - Vent and Mini - Vent AAVs support a complete system to limit pressure fluctuations, guaranteeing the integrity of the traps.
